adds innate power that may duplicate the effects of a magical item or items valued at up to 5000 GP [Currently at 5000 GP] (according to the standard d20 rules). The character must pay twice the normal experience point cost to create said item. For every +1 additional CP invested, these innate enchantments rise in value by 1000 GP. Shapeshift [Eclipse, p.42] (6 CP) You may take Small or Medium animal forms once per day per 3 character evels as a Standard Action. You may not take a form with more hit dice than you possess. All equipment you carry melds with your new form and is unusable. The new form lasts until you decide to change back. As a side effect, shapeshifters can

revert to normal form when polymorphed. Shapeshift / Attribute Modifier [Eclipse, p.43]

(+6 CP) allows the user to take on the physical attribute modifiers of a form, instead of simply taking its average physical attributes.

Shapeshift / Natural Magic [Eclipse, p.43]

(+6 CP) allows a character in animal or plant form to cast spells even without hands or the ability to speak. He or she may use components if he or she had them before transforming.

Traceless (Wilderness) [Eclipse, p.47]

(6 CP). Traceless characters leave no discernable traces of a particular type of activity. The user must choose a specific form. Common forms include - Travel means the character leaves no traces when moving about. The character leaves no footprints, disturbs no leaves, and breaks no twigs. Magic means the character leaves no aura behind and his or her magic does not leave a discernable trace. It does not help with enemies using direct divination or assessing his or her aura in person. Genetic means the character leaves no personal biological evidence, such as fingerprints or usable DNA. More exotic forms include Murder (the victim remains dead, but there is no discernable cause of death and no blood or other traces) Computer Hacking, Surgery, and many more. This may be taken multiple times, each time applying to another activity.

Track (Wilderness) (3 CP). Characters with this feat select Urban, Wilderness, or Dimensional tracking. Tracking requires a Survival (for wilderness) or Gather Information (for urban) check every mile to follow the target. This is DC 15 for favorable conditions, DC 20 for

unfavorable ones. Size bonuses on Hide checks apply, and unfavorable lighting may inflict penalties. Dimensional tracking relies on Spellcraft and can trace Gates or teleportation and dimensional travel.
