#### Duties

[Eclipse, p.17]

(+2) A character with Duties has extensive obligations. These restrict his or her time and freedom of action, as well as draining his or her resources, but also mean getting a lot of practice or extra training. This typically includes Druids, Clerics, and Paladins. Ignoring your duties brings on various penalties. Strangely, this continues until the GM feels you have enough penalties to equal the points you got from Duties

#### Fast Learner/ Specialized for increased effect (Cleric [Eclipse, p.17]

(+1) Actually purchased as a feat for 6 CP, this ability grants extra CP as the character rises in level. Specialized versions are available and encouraged. No one may take Fast Learner more than once unless it's been built into a template, race, or class by the Game Master.

### Restrictions (Won't wear Armor)

[Eclipse, p.17]

A character with restrictions has major limitations on the use of some ability or type of equipment. He or she may never (ever!) acquire or use such talents without major penalties. For example, Witch- Hunters never cast spells except to fix the problems caused by other magic on pain of losing most of their abilities. The point bonus is per category which applies. A character only gains the bonus points for restrictions on things that would obviously useful to him or her. Common restrictions include wearing no armor, using no weapons, using no magic or psionics, or skill-related feats. A good explanation is in order. Why is the character restricted in this way?

### **DISADVANTAGES**

# History

[Eclipse, p.19]

The player has a few pages of notes for the GM about the character's history, personality, and goals. This should include some mention of friends and family, old enemies or allies, and where the character got his or her training or equipment. The GM should to allow the player several sessions to come up with it all

### Hunted (GM and Player to Determine)

[Eclipse, p.19]

Someone's out to get you. You may be an outlaw, have personal enemies, or have been marked by some mystical entity. The nature of your foes should be decided in consultation with the GM. As a rule, you cannot simply confront your hunters and fight it out with them. They're either numerous, powerful, or secretive

# Obligations (Must perform seasonal rituals)

You have responsibilities which you cannot easily discharge. You may have dependents, debts, a geas, massive tithes, oaths to fulfill, a job which you cannot readily leave, be sworn to the service of a lord or ruler, or just have friends who need looking after. This is a wonderful way to get dragged into adventures.

#### Spell Caster Information

Druid

[Eclipse, p.11]

Druid Level 5, Casterlevel is 5

**Eclipse Abilities** 

#### Adept (Heal, Knowledge (Arcana), Knowledge (Nature), Perception)

[Eclipse, p.24]

(6 CP). Select four related (i.e., get your GM's permission) skills, which you learn for half price. Each rank of a relevant skill now costs only 1/2 CP. Each rank of an irrelevant one now costs only 1 CP. ! You may take this ability twice, affecting two groups of skills, if your Game Master gives you permission. Adept is actually one of the most powerful abilities in the system. It provides a huge skill bonus in exchange for simply deciding on what you're good at. The Game Master should keep a careful eye this. It's most common in Prestige Class conversion.

#### Companion

[Eclipse, p.27]

(6 CP). Used to gain familiars, psicrystals, animal companions, and sometimes mounts. Companion empowers a sidekick - usually an animal. You may choose to apply the standard d20 Druid's Animal Companion bonuses, Wizard's Familiar bonuses, Paladin's Mount bonuses, get a Psi-Crystal, or use any similar progression. The base creature may not have an ECL of more than 1/3 your character level.

#### Companion - Great Form

[Eclipse, p.27]

(+6 CP) allows you to apply Righteous Might (at a Caster Level equal to your level) to a companion as a Free Action up to three times per day.

# Companion - Might

[Eclipse, p.27]

(+6 CP) allows you to grant your companion the benefits of two Positive Levels (see page 86) or of a continuously active second level spell or psychic effect

#### Companion - Transform

[Eclipse, p.27]

(+6 CP) allows you to take a form similar to your Companion's, and the Companion to take a form of your species. You both need not use this ability at the same time but may if you wish.

#### Eldritch

[Eclipse, p.31]

(0 CP). You may call upon exotic forces to power your magic rather than relying on the usual sources. In other words, your magic may have strange special effects for free. This has no direct game effect, but gives you more style. Eldritch abilities that cost spell levels do not extend the casting time., Characters using advanced Eldritch feats must select and describe the source of their powers. Other characters with the Eldritch feat and the same source receive no penalties or advantages when facing the user. All three effects may be taken as a set for only 6 CP, but this cannot then be 'turned off." It also limits use of magic items to items made by a character with at least one of these modifiers. Many settings have spells usable only with Eldritch magic, and others not usable at all with Eldritch magic

#### Familiar

[Eclipse, p.27]

You have a familiar companion

#### Immunity (Initial 1st level purchases with Innate [Eclipse, p.34] Enchantment (2cp))

See immunity

[Eclipse, p.53]

Improved Initiative The character gains +2 to Initiative per 3 CP invested, up to a maximum +8 bonus.

### Innate Enchantment

[Eclipse, p.34]

With Innate Enchantment, a character has two options - His or her innate power may duplicate the effects of a magical item or items valued at up to 5000 GP (according to the standard d20 rules). The character must pay twice the normal experience point cost to create said item. For every +1 additional CP invested, these innate enchantments rise in value by 1000 GP

# Innate Enchantment / Detect Magic

[Eclipse]

(+700) At-will personal use at L1 caster level. Innate Enchantment / Enhanced Attribute (+2 Intelligence)

Power Words

[Eclipse, p.39]

(6 CP). Power Words enable the character to store up to (Con score/3) total spell levels and release them as Move-Equivalent Actions. A character may release one spell per round in this fashion.

TEMPLATES

### Duties [Eclipse, p.17]

(+2) A character with Duties has extensive obligations. These restrict his or her time and freedom of action, as well as draining his or her resources, but also mean getting a lot of practice or extra training. This typically includes Druids, Clerics, and Paladins. Ignoring your duties brings on various penalties. Strangely, this continues until the GM feels you have enough penalties to equal the points you got from Duties.

#### Fast Learner/ Specialized for increased effect (Skills)

[Eclipse, p.17]

(+1) Actually purchased as a feat for 6 CP, this ability grants extra CP as the character rises in level. Specialized versions are available and encouraged. No one may take Fast Learner more than once unless it's been built into a template, race, or class by the Game Master.

### **DISADVANTAGES**

### History

[Eclipse, p.19]

The player has a few pages of notes for the GM about the character's history, personality, and goals. This should include some mention of friends and family, old enemies or allies, and where the character got his or her training or equipment. The GM should to allow the player several sessions to come up with it all.

### Irreverent (Deities don't exist)

[Eclipse, p.19]

You are fundamentally unable to accept the "divinity" of gods. You recognize their might and may even see one as a patron, but worphip just isn't part of your nature' they're just really powerful people to you. While gods generally forego directly smiting you, none of them will grant you divine magic and many clerics have a problem with you.

Unarmored

[Eclipse, p.20]

You refuse to use armor for some reason. Characters who already suffer major penalties for wearing armor can't take this disadvantage.

# **Eclipse Abilities**

# Adept (Heal, Perform (Dance), Perform (Sing), Persuasion)

[Eclipse, p.24]

(6 CP). Select four related (i.e., get your GM's permission) skills, which you learn for half price. Each rank of a relevant skill now costs only 1/2 CP. Each rank of an irrelevant one now costs only 1 CP. ! You may take this ability twice, affecting two groups of skills, if your Game Master gives you permission. Adept is actually one of the most powerful abilities in the system. It provides a huge skill bonus in exchange for simply deciding on what you're good at. The Game Master should keep a careful eye this. It's most common in Prestige Class conversion.

#### Mystic Artist

[Eclipse, p.38]

Usable 3/day, DC 16

# Mystic Artist Abilities

Amplification [Eclipse, p.87] (+6 CP). Your art may affect twice the usual number of targets. Add +6 CP per

# Celebrated Way ~ Bardic Immunity

[Eclipse, p.90]

(+6 CP, Requires Wealth). Like many celebrities you can get away with outrageous behavior. You may escape moderate legal troubles, dress, act, and speak in wildly obnoxious ways, and commit huge social faux pas without long-term repercussions. A character with Bardic Immunity can easily get away with wearing the wrong clothes or carrying a bunch of magic weapons to a noble's dinner party. The character could not attack people safely, however - at least not with lethal weapons. Occasionally punching critics is virtually expected.

#### Celebrated Way ~ Fame

additional +1 multiple.

[Eclipse, p.90]

(6 CP). Fame grants you fame, naturally enough. With this, you're a celebrity, are recognized as a great artist in your own lifetime, get invited to all the best parties, have many close friends you've never met, and may often obtain safe passage into restricted areas to show off your art. Fans constantly ask for autographs or whatever passes as the local equivalent.

# Celebrated Way ~ Wealth

[Eclipse, p.90]

(+6 CP, Requires Fame). You are supported by your patrons, and may ignore normal monetary needs. You are considered to have an excellent lifestyle and can readily obtain fine food, housing, clothing, servants, and vehicles in any civilized area. You can even tow along your freeloading friends.

#### Enduring (6x)

[Eclipse, p.87]

(+6 CP). The effects of your art persist 3x as long as usual after the exposure.

# Inspiration Skill 06 ~ Competence

[Eclipse, p.85]

Competence is more like it. Now you can give someone a +2 morale bonus to any skill check, attack roll, saving throw, or AC while you use your art, albeit only one of these at a time. It only affects one character.

#### Inspiration Skill 03 ~ Emotion

[Eclipse, p.85]

You can make everyone in the area feel any strong emotion you care to evoke for up to five rounds after you cease to perform or after they leave the area of your art. In combat you may target either allies or enemies, providing/inflicting a morale bonus/penalty of up to 1 on saves against mind-affecting powers and on attacks and damage. Out of combat this is most useful for manipulating crowds or setting the mood for negotiations, oratory, and diplomacy.

#### Inspiration Skill 12 ~ Excellence

[Eclipse, p.85]

Excellence grants the target two +4 morale bonuses which can be applied to an attribute, to all their saves, to their armor class, to their attacks, or to the damage they inflict in melee combat.

#### Inspiration Skill 09 ~ Greatness

[Eclipse, p.85]

The lucky target[s] of Greatness becomes inspired to new heights. Up to [Level/3] targets gain a +1 Positive Level bonus and 1d10 temporary hit points.

# Manipulation Skill 03 ~ Fascinate

[Eclipse, p.86

People like your art. It's fascinating and mysterious and you can even interest the audience in whatever kind of art you do. Some of them might even take it up themselves. More usefully toadventurers, a Mystic Artist can Fascinate up to (Cha Mod + Level/3) targets. If they fail to save, they remain fascinated for up to (Att Mod + 2) minutes, or until a performance ends, whichever comes first. Mystic Artists with a perform skill of 6 or more may attempt to use a Suggestion effect on any one Fascinated target once per round. Those with a skill of 24+ may attempt to Suggest something to all Fascinated targets at the same time.

### Manipulation Skill 06 ~ Hold Audience

[Eclipse, p.86]

Hold Audience allows you to keep the audience busy, and wile away their time without them realizing it. Any who fail their saving throw become enchanted by your performance or art, and spend more time than they expected. Aside from its usefulness for tavern owners (whose patrons mysteriously spend more time drinking), it's a great distraction. With sufficient attribute and DC enhancements a mystic artist with this ability could hold an entire army spellbound for hours - or even days.

### Path of Dissonance ~ Distracting

[Eclipse, p.90]

(+6 CP). Your art is profoundly disturbing. Those exposed have great difficulty focusing, and must make Concentration checks (DC equal to the mystic artist's skill check) to focus on their tasks, including spellcasting. While this normally affects an area, artists may opt to target a specific individual within range.

# Path of Whispers ~ Subliminal

[Eclipse, p.89]

(+6 CP). Targets must make a DC 24 Int check to notice that they are being influenced by your art.

# Rapid

[Eclipse, p.87]

(6 CP). Your art takes effect immediately, without the usual round of work. This isn't usually worth bothering with for static art, but performance artists may find it very handy.

### **DISADVANTAGES**

#### Compulsive (Impatient with others: would rather act now then talk.)

[Eclipse, p.18]

[Eclipse, p.17]

You have some particular mania or "code of conduct" which influences everything you do. Likely compulsions include the classic manias (like Pyro- or Klepto-), an overwhelming love or hatred, greed, dedication to some peculiar goal, truthfulness, extravagent spending, or even virtue. Codes include things like Hippocratic Oaths or Chivalry. Characters that ignore their compulsions take a 20% experience penalty.

#### History [Eclipse, p.19]

The player has a few pages of notes for the GM about the character's history, personality, and goals. This should include some mention of friends and family, old enemies or allies, and where the character got his or her training or equipment. The GM should to allow the player several sessions to come up with it all

#### Obligations (Arcane Studies and Rituals Merrick expects you to assist in)

[Eclipse, p.19]

You have responsibilities which you cannot easily discharge. You may have dependents, debts, a geas, massive tithes, oaths to fulfill, a job which you cannot readily leave, be sworn to the service of a lord or ruler, or just have friends who need looking after. This is a wonderful way to get dragged into adventures

effects [Uncommon, Minor, Trivial])

See immunity

# Innate Enchantment

With Innate Enchantment, a character has two options - His or her innate power may duplicate the effects of a magical item or items valued at up to 5000 GP (according to the standard d20 rules). The character must pay twice the normal experience point cost to create said item. For every +1 additional CP invested, these innate enchantments rise in value by 1000 GP.

#### Innate Enchantment / Enhanced Attribute (+2 Intelligence)

[Eclipse]

# Innate Enchantment / Force Armor I

[Eclipse]

Innate Enchantment ~ Force Shield I ~ General

[Eclipse]

# (2000gp)

Metamagic / Easy [Eclipse, p.57] (6 CP). You have learned to substitute raw power for some of the usual requirements of your spells. Common applications of this technique include: ! Material (+1 SL) removes the need for most material components unless they're integral to the spell effect. If you have a spell which animates a sword to fight, you still need the sword. However, you won't need ruby dust to sprinkle it with. The classic Eschew Materials feat does not increase the spell level, but only works on materials and only for those costing 1 GP or less. If you want that version, it's bought as Easy, with the Streamline metamagical modifier, Specialized to materials costing 1 GP or less only, for a total of 6 CP. ! Verbal (+1 SL) removes the need for incantations. ! Somatic (+1 SL) removes the need for gestures and arcane spell failure chance. ! Temporal (+1 SL) allows the caster to use the spell as a Free Action. Unfortunately, since you can't take any time to speak, gesture, or get out components, you must also apply the Material, Verbal, and Somatic effects for a total of +4 spell levels. Using this effect on spells with lengthy casting times requires another +1 SL, +2 SL if the normal casting time is measured in hours or more. The classic Quicken feat states that "you can cast a spell with a moment's thought." It isn't quite clear as to what this means or whether it effectively includes the Silent Spell and Still Spell feats; official and unofficial statements seem to go both ways. If you feel that the +4 level cost does not include one more of the earlier effects simply increase the spell level adjustment for Temporal by the number you do not include.

# Duties [Eclipse, p.17]

(+2) A character with Duties has extensive obligations. These restrict his or her time and freedom of action, as well as draining his or her resources, but also mean getting a lot of practice or extra training. This typically includes Druids, Clerics, and Paladins. Ignoring your duties brings on various penalties. Strangely, this continues until the GM feels you have enough penalties to equal the points you got from Duties.

#### Restrictions (Cannot wear metal armor)

#### [Eclipse, p.17]

A character with restrictions has major limitations on the use of some ability or type of equipment. He or she may never (ever!) acquire or use such talents without major penalties. For example, Witch- Hunters never cast spells except to fix the problems caused by other magic on pain of losing most of their abilities. The point bonus is per category which applies. A character only gains the bonus points for restrictions on things that would obviously useful to him or her. Common restrictions include wearing no armor, using no weapons, using no magic or psionics, or skill-related feats. A good explanation is in order. Why is the character restricted in this way?

### **DISADVANTAGES**

#### Compulsive (Has to protect "Yaiba" - even without regard to his own safety)

[Eclipse, p.18]

You have some particular mania or "code of conduct" which influences everything you do. Likely compulsions include the classic manias (like Pyro- or Klepto-), an overwhelming love or hatred, greed, dedication to some peculiar goal, truthfulness, extravagent spending, or even virtue. Codes include things like Hippocratic Oaths or Chivalry. Characters that ignore their compulsions take a 20% experience penalty.

# Hunted (Vampires)

[Eclipse, p.19]

Someone's out to get you. You may be an outlaw, have personal enemies, or have been marked by some mystical entity. The nature of your foes should be decided in consultation with the GM. As a rule, you cannot simply confront your hunters and fight it out with them. They're either numerous, powerful, or secretive.

# Irreverent (Seen too much battle to believe in any higher power)

[Eclipse, p.19]

You are fundamentally unable to accept the "divinity" of gods. You recognize their might and may even see one as a patron, but worphip just isn't part of your nature' they're just really powerful people to you. While gods generally forego directly smiting you, none of them will grant you divine magic and many clerics have a problem with you.

### **Eclipse Abilities**

# Adept (Acrobatics, Martial Arts, Perception, Stealth)

[Eclipse, p.24]

(6 CP). Select four related (i.e., get your GM's permission) skills, which you learn for half price. Each rank of a relevant skill now costs only 1/2 CP. Each rank of an irrelevant one now costs only 1 CP. ! You may take this ability twice, affecting two groups of skills, if your Game Master gives you permission. Adept is actually one of the most powerful abilities in the system. It provides a huge skill bonus in exchange for simply deciding on what you're good at. The Game Master should keep a careful eye this. It's most common in Prestige Class conversion.

# Awareness

[Eclipse, p.25]

(6 CP). You suffer no defensive penalties when you're surprised. You retain your Dexterity bonus when caught flat-footed or attacked by an invisible assailant and save without penalty against surprises.

# Awareness - Flankless

[Eclipse, p.25]

(+6 CP) You can no longer be flanked. This is usually Specialized so that it does not function against opponents with a 4-level or better advantage over you.

# Celerity (Walk)

[Eclipse, p.27]

(6 CP). Celerity adds +10 feet per round to one of your movement modes. This is considered bonus movement for the purposes of skills; it does not apply when calculating movement penalties on skill use.

# Celerity / Improved (6x)

adds +10' more movement per 3 CP invested.

[Eclipse, p.27]

# Evasive, Very Common Actions (Move through threatened square)

[Eclipse, p.52]

Evasive characters may take an action (select one) that usually provokes an Attack of Opportunity without being so exposed. You may take this multiple times, selecting a different action each time.

#### Finesse (Dex Mod adds to hit bonus; Specialized/only for Longsword - 3CP)

[Eclipse, p.32]

(6 CP). A character with Finesse may replace one attribute modifier with another in some fairly common situation, such as for a particular saving throw.

# Improved Initiative (6x)

[Eclipse, p.53]

The character gains +2 to Initiative per 3 CP invested, up to a maximum +8 bonus.

Journeyman (Skill) [Eclipse, p.35]

#### he or she were one level higher, increasing the usual (Level + 3) cap. **Legionary**

A Journeyman may purchase some type of ability (often skills or spellcasting) as if all or she were one level higher, increasing the usual (Level + 3) cap.

Legionary [Eclipse, p.53] (6 CP). A Legionary has great coordination when fighting in a team. The character gains +1/2/3 bonus to AC, Attacks and Reflex Saves when teamed with 1-2/3-4/5+ others with who also possess this feat.

# Martial Arts

### Attack

[Eclipse, p.81]

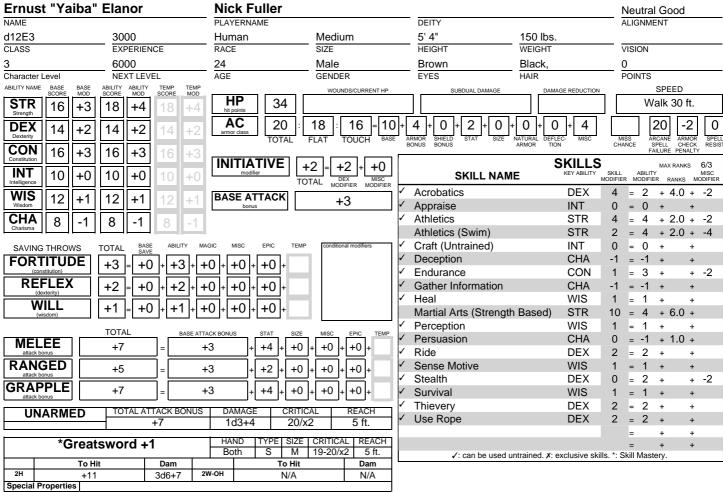

You get a +1 bonus on rolls to Attack, Throw, Grapple, and Trip opponents.

# Defenses (4x)

[Eclipse, p.81]

You gain +1 bonus to AC when you are unarmored or lightly armored.

#### Fast Learner/ Specialized for increased effect (BAB Purchases)

[Eclipse, p.17]

(+1) Actually purchased as a feat for 6 CP, this ability grants extra CP as the character rises in level. Specialized versions are available and encouraged. No one may take Fast Learner more than once unless it's been built into a template, race, or class by the Game Master

# **DISADVANTAGES**

#### Dependent (Elam Rembrandt)

[Eclipse, p.18]

There is something you just have to have to function effectively. You could be addicted to a drug, rely on a special talisman, require constant support and encouragement, or simply be so confused that you need someone to tell you what to do. Unless there's a specific effect involved this defaults to a -3 penalty on your rolls.

#### Hallucinations, Flashbacks, and Visions (mainly his friends dying in war in front of him)

[Eclipse, p.19]

Your version of reality doesn't always agree with that of those about you. While this is common enough with respect to details, in your case it may extend to things like whether it's daytime. More commonly, and most dangerously, you may simply see a distorted version of what everyone else sees. This is up to the GM, but the occasional Will save (DC 18) is suggested, or you may react in a radically different manner than those about you.

# Outcast (Not Specified)

You are socially unacceptable in a large area or with a large and important group. You might be noted as an oathbreaker, an "untouchable," a kinslayer, or an ex-slave, belong to a despised ethnic group, believe in a heretical faith, or simply have numerous obnoxious habits. In any case, a sizable segment of the people in the campaign setting will have nothing to do with you.

Stigmata [Eclipse, p.20]

You have some injury which either cannot be healed or has healed badly. It is both painful and inconvenient. You must make a DC 24 Fortitude save at the start of each . session; if you fail you take a -1 morale penalty on saving throws for the duration of

# **Eclipse Abilities**

#### Anime Master

[Eclipse, p.50]

Anime Master allows the user to grapple, overbear, and wield weapons, as if he or she was one size category larger.

Berserkei

(6 CP). The Berserker ability grants extreme but short-lived bonuses. The user normally gains +4 to two attributes, +2 to a saving throw or AC, and -2 to another attribute, save, or AC for (3+Con Mod) rounds 1/day. The user gains another berserk session per day per 3 character levels or part thereof. The user becomes fatigued after using Berserker. GM's should note that the character may not generally do anything else but a specified, focused task or similar stunt. For the classic barbarian rage, the character can do little except immediate, physical skills and tasks, mostly meaning combat. Note that the guidelines on where the bonuses should go are not meant as absolute rules; let a character picksomething appropriate. AC, damage bonuses, to-hit bonuses, Caster Level, or even turning might all be acceptable choices depending on the character. The bonuses must simply total +8 (the character may apply a -2 penalty somewhere to add an additional +2).

#### Berserker - Enduring

[Eclipse, p.26]

(+3 CP) removes the fatigue after the berserker session. This is often combined with Corrupted Bonus Uses (only to extend the duration).

### Block (Melee) (Melee)

[Eclipse, p.50]

Block lets a character counter an incoming melee attack with DC 20 Reflex save once per round. In general, each Block attempt uses up an Attack of Opportunity and provides Great Immunity to the attack. Attackers may give up part of their BAB to increase the Block save DC on a 1-to-1 basis.

### Block (Melee) / Riposte

(+6 CP) allows the user to immediately retaliate in the same mode, launching a single attack of their own. This counts as an Attack of Opportunity and requires a successful Block check - which also counts as an Attack of Opportunity. You'll need extras

#### Bonus Uses +2

(+3 CP). Bonus Uses increases the number of times the user may indulge in a times-per-day (or other appropriate period) ability by +2. At GMO, the character may add a relevant attribute modifier to the number of uses instead. Bonus Uses may be purchased repeatedly.

### Damage Reduction 2/- (ALL)

[Eclipse, p.29]

This applies to all damage sources, including magical and energy-based attacks. Characters commonly specialize it by applying it only towards physical attacks, energy attacks, magical attacks, or another GM-approved specialty. The Corrupted modifier can be added by leaving an additional common "hole" in your defenses. For example, silver weaponry or fire spells would apply to physical reduction or magic defenses, respectively. ! You may take this ability multiple times. Each time, you add another type of damage reduction.

Expertise [Eclipse, p.32]

(6 CP). A character with Expertise selects two related abilities, attributes, or other scores. He or she may reduce one of the selected abilities' bonuses at any time by up to -5 to add a equal amount to the other bonus. Usually, characters take this for Warcraft (BAB) and AC or damage, but many other combinations exist

#### Favored Foe (Undead) [Eclipse, p.52]

A character with Favored Foe may select an enemy creature type at levels 1, 5, 10, 15, 20, and so on, gaining a +2 to damage and on Listen, Sense Motive, Spot, and Survival checks when using these skills against a chosen enemy creature type. Each time a new foe is added the character may select one of his or her foes (including the one just chosen) and increase his or her bonuses against that foe type by +2. BONUS: ABILITYPOOL

### Legionary

(6 CP). A Legionary has great coordination when fighting in a team. The character gains +1/2/3 bonus to AC, Attacks and Reflex Saves when teamed with 1-2/3-4/5+ others with who also possess this feat.

Stoic

[Eclipse, p.45]

(6 CP). Characters with Stoic are not subject to death by massive damage and may make a Fortitude save (DC 15) each round to self-stabilize if below 0 HP.

# Stoic / Ferocity

[Eclipse, p.45]

(+3 CP) allows characters to act normally while at negative HP (but not while dead) until after the battle.

### **DISADVANTAGES**

# History

[Eclipse, p.19]

The player has a few pages of notes for the GM about the character's history, personality, and goals. This should include some mention of friends and family, old enemies or allies, and where the character got his or her training or equipment. The GM should to allow the player several sessions to come up with it all.

Recorder [Eclipse, p.19]

The player keeps records, and ensures that the GM gets a copy. Acceptable forms are up to the GM, but common variants include character diaries, letters, campaign logs, and keeping a list of NPC's.

Unarmored

You refuse to use armor for some reason. Characters who already suffer major penalties for wearing armor can't take this disadvantage.

[Eclipse, p.24]

(6 CP). Select four related (i.e., get your GM's permission) skills, which you learn for half price. Each rank of a relevant skill now costs only 1/2 CP. Each rank of an irrelevant one now costs only 1 CP. ! You may take this ability twice, affecting two groups of skills, if your Game Master gives you permission. Adept is actually one of the most powerful abilities in the system. It provides a huge skill bonus in exchange for simply deciding on what you're good at. The Game Master should keep a careful eye this. It's most common in Prestige Class conversion.

#### Companion

[Eclipse, p.27]

(6 CP). Used to gain familiars, psicrystals, animal companions, and sometimes mounts. Companion empowers a sidekick - usually an animal. You may choose to apply the standard d20 Druid's Animal Companion bonuses, Wizard's Familiar bonuses, Paladin's Mount bonuses, get a Psi-Crystal, or use any similar progression. The base creature may not have an ECL of more than 1/3 your character level.

#### Companion - Might

[Eclipse, p.27]

(+6 CP) allows you to grant your companion the benefits of two Positive Levels (see page 86) or of a continuously active second level spell or psychic effect.

# Companion - Transference

[Eclipse, p.27]

(+Sp.) allows you to give CP to your Companion. He, she, or it receives 2 CP for every 1 CP you surrender.

#### Companion - Additional

(+6 CP) allows you to gain another Companion. The new Companion gains the benefits of any Great Form, Might, Storage, Transform, or Template bonuses already given to a previous Companion, if applicable and you so desire.

#### Create Relic

[Eclipse, p.29]

(6 CP). Another classical way to create weird and wonderful devices, Create Relic allows you to invest CP directly into items. Each 1 CP permanently invested in such an item grants it 6 CP worth of abilities to bestow on the user. While this is permanently weakens you, and creates items which are intimately tied to you, it does allow the creation of truly impressive devices without having to expend a lot of CP on special abilities. Such items are very good links to you for certain magical activities.

#### Eldritch [Eclipse, p.31]

(0 CP). You may call upon exotic forces to power your magic rather than relying on the usual sources. In other words, your magic may have strange special effects for free. This has no direct game effect, but gives you more style. Eldritch abilities that cost spell levels do not extend the casting time., Characters using advanced Eldritch feats must select and describe the source of their powers. Other characters with the Eldritch feat and the same source receive no penalties or advantages when facing the user. All three effects may be taken as a set for only 6 CP, but this cannot then be 'turned off." It also limits use of magic items to items made by a character with at least one of these modifiers. Many settings have spells usable only with Eldritch magic, and others not usable at all with Eldritch magic.

# **Enthusiast**

(3 CP). Enthusiast grants 1 floating CP. Given 72 hours to retrain and redirect it you may put it into anything you please save for Specific Knowledges (page 10), boosting that ability until you turn your enthusiasm in another direction.

#### Enthusiast ~ Double [Eclipse, p.31]

(+3 CP) upgrades Enthusiast so that it grants 2 floating CP instead of 1. Familiar [Eclipse, p.27]

# You have a familiar companion

# Innate Enchantment

[Eclipse, p.34]

With Innate Enchantment, a character has two options - His or her innate power may duplicate the effects of a magical item or items valued at up to 5000 GP (according to the standard d20 rules). The character must pay twice the normal experience point cost to create said item. For every +1 additional CP invested, these innate enchantments rise in value by 1000 GP

# Metamagic / Easy

self-confident.

As spell

[Eclipse, p.57]

(6 CP). You have learned to substitute raw power for some of the usual requirements of your spells. Common applications of this technique include: Material (+1 SL) removes the need for most material components unless they're integral to the spell effect. If you have a spell which animates a sword to fight, you still need the sword. However, you won't need ruby dust to sprinkle it with. The classic Eschew Materials feat does not increase the spell level, but only works on materials and only for those costing 1 GP or less. If you want that version, it's bought as Easy, with the Streamline metamagical modifier, Specialized to materials costing 1 GP or less only, for a total of 6 CP. ! Verbal (+1 SL) removes the need for incantations. ! Somatic (+1 SL) removes the need for gestures and arcane spell failure chance. ! Temporal (+1 SL) allows the caster to use the spell as a Free Action. Unfortunately, since you can't take any time to speak, gesture, or get out components, you must also apply the Material, Verbal, and Somatic effects for a total of +4 spell levels. Using this effect on spells with lengthy casting times requires another +1 SL, +2 SL if the normal casting time is measured in hours or more. The classic Quicken feat states that "you can cast a spell with a moment's thought." It isn't quite clear as to what this means or whether it effectively includes the Silent Spell and Still Spell feats; official and unofficial statements seem to go both ways. If you feel that the +4 level cost does not include one more of the earlier effects simply increase the spell level adjustment for Temporal by the number you do not include.

Metamagic / Extension [Eclipse, p.58]

(6 CP). Extension covers the fine art of manipulating the range of spells. Common applications include:! Extension (+1 SL per step) increases the range of a spell from Touch to Short, Short to Medium, Medium to Long, Long to Extreme (800 ft + 80 ft/Level), and Extreme to Line of Sight (limited only by the user's direct vision).! Indirect Fire (+2 SL) allows the spell to hit targets within range which the user is aware of but cannot see; this is not compatible with Line of Sight.! Global (+6 SL) amplifies the range so that it may hit any known target on a planet (or in the atmosphere).! Trans-dimensional (+8 SL) allows the user to targetthrough scrying effects, to hit targets across the dimensional boundary, or to target people at interstellar ranges. Strangely, Trans-dimensional doesn't take any more time to reach the target than normal.

# Metamagic / Streamline (12x)

[Eclipse, p.60]

(6 CP) A favored ability for casters, this reduces the level cost of any two metamagic feats by -1. Casters may take this more than once, but cannot reduce the level cost below 0.

### Martial Arts

Attack [Eclipse, p.81]

You get a +1 bonus on rolls to Attack, Throw, Grapple, and Trip opponents.

Defenses (4x) [Eclipse, p.81]

Instant Stand [Eclipse, p.81]

You may stand up as a Free Action if unarmored or in light armor.

Mind Like Moon [Eclipse, p.81]

You reflexively come on guard when attacked. With a DC 15 Reflex save, you avoid being surprised or flat-footed at the beginning of combat.

Power [Eclipse, p.8<sup>o</sup>

Increase your unarmed damage by +1 or increase your weapon die type by 1 step, up to a d12 maximum. Weapons that cause multiple dice of damage increase them independently.

# **TEMPLATES**

# Duties

(+2) A character with Duties has extensive obligations. These restrict his or her time and freedom of action, as well as draining his or her resources, but also mean getting a lot of practice or extra training. This typically includes Druids, Clerics, and Paladins. Ignoring your duties brings on various penalties. Strangely, this continues until the GM feels you have enough penalties to equal the points you got from Duties

### Fast Learner/ Specialized for increased effect (HD)

[Eclipse, p.17]

[Eclipse, p.17]

(+1) Actually purchased as a feat for 6 CP, this ability grants extra CP as the character rises in level. Specialized versions are available and encouraged. No one may take Fast Learner more than once unless it's been built into a template, race, or class by the Game Master.

# **DISADVANTAGES**

### Compulsive (Gambling)

[Eclipse, p.18]

You have some particular mania or "code of conduct" which influences everything you do. Likely compulsions include the classic manias (like Pyro- or Klepto-), an overwhelming love or hatred, greed, dedication to some peculiar goal, truthfulness, extravagent spending, or even virtue. Codes include things like Hippocratic Oaths or Chivalry. Characters that ignore their compulsions take a 20% experience penalty.

### Inept (Wisdom)

[Eclipse, p.19]

You suffer from a -2 modifier on all skills linked to the chosen Attribute

# Obligations (Must pay off a Debt)

[Eclipse, p.19]

You have responsibilities which you cannot easily discharge. You may have dependents, debts, a geas, massive tithes, oaths to fulfill, a job which you cannot readily leave, be sworn to the service of a lord or ruler, or just have friends who need looking after. This is a wonderful way to get dragged into adventures.

### **Eclipse Abilities**

#### Augment Attack (Plus 3 to Damage (Longsword), (CP total =3))

[Eclipse, p.50]

(3 CP). Augment Attack grants +1d6 damage or +1 to hit in some specific situation (essentially, this feat is already "Specialized"), per 3 CP invested (a mere +1 damage costs 1 CP and +1d8 costs 4 CP). Characters may double the cost to make the situation relatively common or triple it to make it very common (e.g., with a particular type of weapon which you almost always use). No character may possess more than 36 CP worth of basic augmentations.

# Block (Melee) (Melee)

Block lets a character counter an incoming melee attack with DC 20 Reflex save once per round. In general, each Block attempt uses up an Attack of Opportunity and provides Great Immunity to the attack. Attackers may give up part of their BAB to increase the Block save DC on a 1-to-1 basis.

# Improved Initiative (9x)

[Eclipse, p.53]

The character gains +2 to Initiative per 3 CP invested, up to a maximum +8 bonus. Stoic

[Eclipse, p.45]

(6 CP). Characters with Stoic are not subject to death by massive damage and may make a Fortitude save (DC 15) each round to self-stabilize if below 0 HP.
