Adept (Heal, Insight, Perception, Survival)

Choose four related skills that only cost 1/2 a Character Point for each skill rank Damage Reduction 5/- (Evil) [Eclipse, p.29]

This applies to all damage sources, including magical and energy-based attacks. Characters commonly specialize it by applying it only towards physical attacks, energy attacks, magical attacks, or another GM-approved specialty. The Corrupted modifier can be added by leaving an additional common "hole" in your defenses. For example, silver weaponry or fire spells would apply to physical reduction or magic defenses, respectively. ! You may take this ability multiple times. Each time, you add

Immunity / Aging [Eclipsell]

(uncommon/minor/minor, 2 CP). They can expect to live for several centuries without much of any signs of aging.

Innate Enchantment [Eclipse, p.34]

adds innate power that may duplicate the effects of a magical item or items valued at up to 5000 GP [Currently at 5000 GP] (according to the standard d20 rules). The character must pay twice the normal experience point cost to create said item. For every +1 additional CP invested, these innate enchantments rise in value by 1000

Presence (Sanctuary)

10' Radius effect of the Selected Spell Effect.

[Eclipse, p.39] Presence / Improved

(+6 CP) adds +4 to any social skill roll made with the backing of Presence. This means that characters with auras of holiness or purity gain the bonus when dealing with decent folk, while characters with auras of evil and corruption gain the bonus when bribing or intimidating others. Unlike the basic effect, such modifiers can affect anyone and everyone you interact with. Of course, this also marks you, and will doubtless draw a good deal of attention.

Presence / Superior [Eclipse, p.40]

(+6 CP) requires Improved and forces all would-be attackers to make Will saves (DC 13 + character's Cha Mod) or be unable to attack, either out of fear, awe, loathing, love, insanity, or because they're rolling on the ground laughing. The save must be repeated each round, although victims get a +5 bonus if the user is currently attacking them.

Spell Conversion (Healing spells) [Eclipse]

(6 CP). A character with Spell Conversion selects a limited number of spells according to his or her class theme, usually nine (one for each spell level). The user may convert a prepared spell of equal or higher level into one of them spontaneously. The user must already have access to the spells he or she selects for Spell Conversion. Clerics use this the most, but anyone may have it.

Spell Resistance [Eclipse, p.45]

(6 CP). The character gains Spell Resistance which rises with his or her level, rated at (5 + character level)., Spell Resistance = 8
